COMPUTER TIP

Try this address for genealogy links

www.Genealogy.about.com

This is the genealogy site for the New York Times newspaper.
The information is in the form of a newsletter and is published monthly.
It is free so on the first page enter your E-mail address and they will be sent to you monthly.
There are many links and articles about genealogical research.
I repeat-there is no charge and they will not try to sell you anything.
